Photographers are the visual explorers of concepts, light and relationships. As we frame the world in our viewfinders, we are creating and expressing the world we are an integral part of. As we digitally create and enhance the image, our skills and imagination are constantly challenged to create better images that are conceptually sound and technically flawless. Digital photographic hardware and software give the artist the ability to refine and explore the still and moving image to the fullest expression of the photographer’s vision. But this inherent power comes with an even greater responsibility to use the digital tools appropriately in relationship to the artist’s creative intent.

The Master of Professional Studies in Digital Photography is an intensive degree program that seamlessly blends the most current technical and aesthetic aspects of contemporary image-making. The program meets the needs of professional photographers, photographic educators and visual artists who want to advance their skills in digital image capture, image processing and high-quality output to remain competitive in a variety of image-making fields and professions.

The ideal MPS Digital Photography candidate has a strong photographic background, is dedicated to developing and completing a professional and unique body of work, and has a deep passion for exploring the confluence of aesthetics and technology. Our student body mirrors the diversity of the 21st century in terms of heritage, age, technical acumen, professional experience and photographic interests that include but are not limited to photojournalism, fine art, portrait, commercial, fashion, landscape and documentary photography.

The program benefits greatly from both its outstanding faculty and its location in the heart of the photo district and gallery scene in New York City. Our instructors are working professionals with extensive expertise in professional photography and digital-imaging technologies. The entire faculty and staff are dedicated to challenging students to take complete control and responsibility for every decision and detail in their images. A variety of guest lecturers from the industry complement the core faculty to enrich each student’s learning experience.

—Katrin Eismann, chair
About the Program

The course of study addresses a wide range of topics, including: capture to image processing, workflow and asset management, digital portfolio design and distribution, working with video and sound, and exhibition. The program emphasizes cutting-edge training via in-depth course work, critically focused workshops, special interest seminars, and presentations by technical experts and contemporary photographers. The primary instructional goal is to enable students to excel in their creative or commercial photographic imaging careers.

Degree candidates must successfully complete 30 credits, including all required courses, pass all non-credit classes and maintain a 3.0 grade point average. During the spring semester and summer session, each student completes a thesis project that culminates in an online project, branding materials, printed book and exhibit prints. The thesis project must be reviewed and approved by the thesis committee and the department chair for the student to be eligible for degree conferral.
This past April, Shravya Kag found herself walking a red carpet in London. The event was for the Sony World Photography Awards, and Shravya was a finalist in the Student Focus category. “I didn’t quite realize the magnanimity of the event until I was on the red carpet,” says Shravya, “I thought—oh, this is serious.”
The Sony World Photography Awards made an international call to over 300 eligible photography schools to submit one image from a student that fit this brief: “Recreate one of your favorite memories in a single image.” Digital Photography chair Katrin Eismann submitted, on Shravya’s behalf, one of her self-portraits. Katrin: “Whenever I saw Shra, she had a book with her and I also knew how much she loves the Strand Bookstore. So the image, created in James Porto’s Photo Illustration class, resonated with memories, adventures, being alone but not being lonely.”

Shravya’s image was among the 10 of a total of 309 submissions chosen by Sony to continue in the competition. She was awarded a brand new, full-frame Sony digital camera and given a second assignment to fulfill in approximately two-week’s time. The second brief was on emotions: “How can photography best portray the way we think and feel?” Shravya produced eight diptych images that contrasted emotions. Shravya: “I told students that I’d be photographing them remembering their happiest moment, but when they closed their eyes I had a friend pop a balloon right next to their ear to trigger the shock and surprise.”

Both Shravya and Katrin were treated to a trip to London to go to the awards ceremony. Eismann: “The entire event was fabulous—from the black-tie dinner with over 600 attendees to the portfolio reviews to the exhibit and the lecture with world-renowned photographer Martin Paar. Everyone was very open, curious and supportive, and many good memories and the start of lasting friendships were created. Additionally, of the 10 student finalists, Sony awarded Shra and two other students a valuable grant to work on a collaborative project that will be exhibited in London at next year’s awards. Shra will be working with students from Germany and Japan. This is the first time that Sony has awarded this grant to students.”

ABOVE: Shravya’s self portrait that was submitted to the Sony World Photo Awards.
How did Shravya get to this point? While doing her masters in her native India, Shravya had fallen into freelance photography and video. “I happened to be at a music video shoot and I started shooting behind the scenes, just for myself. But those images ended up on the desk of the CEO of the production company. He contacted me and said, ‘You’re going to shoot all the videos from now on.’” She decided to give full-time freelancing a shot and set up a company, doing documentary and wedding photography. One summer she decided to go to New York City to take a course, “and I just fell in love with the city. I thought, I have to come back. So I applied to SVA.” Why SVA’s Digital Photography program? “It catered to all my interests. I wanted to learn about business, and this program teaches that and about the gallery world, the fine art world, and editorial photography—and it has James Estrin (The New York Times senior staff photographer and MPS Digital Photography faculty)! I was like, I’m sold.”

Since she got her MPS degree in 2016, Shravya has been keeping herself quite busy. She works as a digital assistant for photographer Ira Block, produces video for the non-profit Harlem Arts Festival and does freelance work—all while shooting her personal projects. “My interest in photography started with my phone camera on the streets in India. I spoke to random strangers and got to know them. I was attracted to the serendipity and just the raw energy.” She has been working on a project about musicians and performers in the New York City Subway system, which started as a thesis project. She’s also working on a photo essay of Punjabis living in Richmond Hills, Queens. “Apart from that, I’m just on the streets, roaming around taking pictures.”

Shravya describes herself as a street photographer and guerrilla filmmaker.

Open to the Public: Fostering Community

Being a part of the greater New York City creative community is an essential aspect for our students, alumni, faculty and staff to foster exchange and support the development of cutting-edge ideas and visual literacy. The SVA Masters in Digital Photography department plays an active role in the photographic community by hosting a critically curated lecture series and presenting two to three exhibitions per year, all of which are free and open to the public.
I3 LECTURE SERIES
Images, Ideas and Inspiration are the backbone of our lecture series that features leading-edge digital fashion, editorial and fine-art photographers. Industry experts, including editors, curators, art directors, and retouchers, as well as hardware and software developers, who each bring unique and current insights about the ever-changing field of digital photography and content creation. The regularly scheduled bi-weekly lectures are open to the public on alternating Tuesday evenings from 7–8:30pm. Additionally, an archive of past lectures can be found on the SVA YouTube page that is updated regularly with recent lectures. Popular speakers have included Bon Duke, fashion photographer; Deborah Willis, artist, author, educator and curator; Jordan Matter, dance photographer; and Carrie Beene, beauty and product retoucher.

EXHIBITS
Photographers create work to share and have their work seen by a greater audience. The MPS Digital Photography department presents two exhibits in New York City and one in St. Remy, France each year. Our primary exhibits take place each fall and can be seen in Brooklyn and Manhattan. In September we participate in Photoville, the annual festival with gallery spaces built from re-purposed shipping containers. Photoville provides a unique opportunity to engage with a diverse audience — a veritable cross-section of the world’s photographic community.
In October, the department curates and presents the thesis projects that are the culmination of the graduating class’s work. The work is presented as exhibition-quality large-format prints, books and videos, a comprehensive exhibit website and has also included installation work. Including a celebratory reception, the annual thesis exhibit is one of the brightest highlights of our school year. Our student’s work is also featured in ongoing exhibits during the summer semester in a variety of SVA Galleries.

For the past four years, the MPS Digital Photography department has worked closely with the SVA Gallery staff to develop and print cohesive exhibitions that are displayed in St Remy, France where Vincent Van Gogh lived and worked as an artist. The exhibit takes place in the fall and is seen by countless visitors.

Course Offerings

This is a sample of our recent course listings. For our full curriculum, please visit: sva.edu/mpsphoto/curriculum.

ADVANCED IMAGE PROCESSING
Advanced creative and production techniques are the focus of this course. Issues addressed include managing, processing and enhancing a wide variety of still and video files; developing a professional workflow; exploring creative digital darkroom, advanced masking and retouching techniques.

EDITORIAL PHOTOGRAPHY
This intensive seminar will simulate real-world, magazine and multi-media assignments. Students will develop story ideas and learn how to edit the work for final submission. Students will complete a body of work for either print or online publication and most importantly garner valuable inside knowledge of how prominent editors and photographers think about and execute highly sought after magazine photographic and video assignments.

DESIGN ESSENTIALS
This course concentrates on the software skills used in page layout, identity branding and web design that are essential for the successful completion of the thesis project. Working with the Adobe Creative Suite, students will be introduced to the fundamentals of logo design, page layout and web design, including working with HTML and CSS and publishing portfolios to tablets.

BUSINESS PRACTICES
Being a successful photographer requires more than talent and good fortune. This course will examine proper business practices in the photography industry that include budgeting; financial planning; negotiating and pricing concerns; image use and copyright registration; and developing the correct and proper paperwork needed, such as invoices and a variety of model and property releases.

COLOR MANAGEMENT AND OUTPUT
This course tackles the most prominent problem of making a print—accurately and consistently reproducing the photographer’s vision. Topics addressed include: creating files that are color managed from input to output, properly sharpened for a wide selection of media substrates, working with a variety of color management systems and equipment, taking advantage of Photoshop soft proofing and experimenting with a wide variety of papers and output options to achieve predictable and repeatable high-quality results.

PHOTO AND VIDEO WORKFLOW
This is a comprehensive survey of the terms, tools and technology of digital-image capture, lighting and workflow. Students will learn how to evaluate and improve image quality; understand and apply critical technical analysis to sensor, lens and workflow components; and how to manage still and video projects from capture and download to processing, editing and archiving.

PHOTO ILLUSTRATION
From concept to capture and image processing, this course addresses the creative workflow that commercial and fine art illustrators use to make compelling photo montages and composites. Students will learn the essential attributes of a successful composite, including: planning the image before lifting the camera; lighting and photographing the image elements and background plates; selecting, color matching and compositing image elements; and working with an art director and production team to create the best image possible.

EXHIBITION PRINTING
In this course, students will learn to select, prepare and fine-tune their images for large-scale printing. Topics addressed include tonal and color adjustments, appropriate sharpening techniques, and understanding proofs in relationship to size, substrate and color. Students will work with wide-format printers to create exhibition-quality color and black-and-white prints.

I3: IMAGES, INSPIRATION, INFORMATION I, II AND III
This bi-weekly lecture series features leading-edge fashion, editorial and fine-art photographers. Industry experts, including editors, curators, art directors and retouchers, as well as hardware and software developers will each bring unique and current insights about the ever-changing field of digital photography and content creation.

EXPLANATION OF DEGREES

MFA Degree: The Master of Fine Arts (MFA) degree is the terminal degree in the United States in the fine arts. Coursework consists of both applied and theoretical work and culminates in a Thesis Defense and participation in a Thesis Exhibition. The MFA degree is completed in two to three years and is ideal for those who wish to pursue a fine art career and/or are interested in teaching in tenure-track positions.

MPS Degree: The Master of Professional Studies (MPS) degree is an accredited graduate degree designed for professionals to advance and sharpen specific skills with emphasis on real-world applications and solutions. An MPS degree is ideal for working professionals to develop marketable skills to meet evolving career demands and expand their professional opportunities.

Photography graduate programs at SVA

In addition to the MPS in Digital Photography, SVA offers two other graduate programs to serve the diverse and ever-changing world of photography and visual communication: MFA Photography, Video and Related Media and MPS Fashion Photography. For more information, please go to sva.edu/grad.

The heart and soul of education begins with a clear vision. Katrin has done a spectacular job building a masters program that strikes the right balance between technical skills and creativity.”

—William S. Geffert, senior imaging manager, Metropolitan Museum of Art

THE ELECTRONIC PORTFOLIO
Students will explore the grouping, sequencing, distributing and presenting of their images via a website, video or tablet delivery. Since this is a digital process, students have tremendous freedom to publish their images as well as to experiment with the most effective way to present and sequence images for a wide variety of on-screen portfolio options.

THESIS DEVELOPMENT
Dedicated to developing a thesis body of work that demonstrates the highest creative, conceptual and technical standards, this course will concentrate on the written thesis proposal, media research and exploration, rigorous critique, and a survey of electronic, book and exhibit image distribution and display options.

THE BOOK AND BRAND
This course addresses the editing and sequencing of images as students experiment with the layout of their images and provide the writing that will accompany their images. Final layout, design, image selection and writings will be produced using digital book publishing services or by producing a photographic portfolio. Additionally, students will design and produce their branding, business and marketing materials.
Faculty

Lecturers, mentors and thesis advisors play an active role in our program. Past and present participants include:

- Katrin Eismann, chair, photographer, author
- Tom P. Ashe, associate chair, photographer, consultant
- Elizabeth Avedon, book and exhibition designer, curatorial consultant
- Carrie Beene, owner, principal retoucher, CarrieNYC
- Benjamin Bobkoff, designer
- Michelle Brady, digital workflow consultant
- Debra Klomp Ching, owner, director, Klompching Gallery
- James Estrin, staff photographer, The New York Times; co-editor, Lens Blog
- Michael Brian Foley, photographer; owner, Foley Gallery
- Greg Gorman, photographer, Epson Print Master
- Russell Hart, author, editor, photographer
- Stella Kramer, photo editor, creative consultant
- Jaime Permut, visual artist, art educator
- James Porto, photographer, conceptual illustrator, author
- Jack Reznicki, photographer, writer
- Matthew B. Richmond, director of user experience, Adobe Systems
- Jaime Rosman, photographer, retoucher
- Ellen Wallenstein, photographer, book artist
- Jorg Badura, sports and lifestyle photographer
- Ira Block, photographer, National Geographic
- Dan Burkholder, fine artist, creative technology aficionado
- Elinor Carucci, editorial, fine art photographer
- Jon Cone, fine art printer
- Jen Davis, fine art photographer
- Natan Dvir, editorial photographer
- Brian Finke, editorial, fine art photographer
- Lois Greenfield, dance photographer
- Cig Harvey, fine art photographer
- Andrew Hetherington, editorial photographer
- Pieter Hugo, photographic artist
- W.M. Hunt, photography collector, curator
- Loring Knoblauch, critic, blogger, photo collector
- Dina Litovsky, editorial and fine art photographer
- Douglas Ljungkvist, fine art photographer
- Jorden Matter, dance photographer
- Joe McNally, editorial and commercial photographer
- Kira Pollack, director of photography and visual enterprise, Time
- Richard Renaldi, editorial, fine art photographer
- Claire Rosen, editorial and fashion photographer
- Radcliffe ‘Ruddy’ Roye, photographer, Instagram activist
- Timothy Sexton, fashion and beauty retoucher
- Sarah Silver, fashion and beauty photographer
- Maggie Taylor, fine art photographer
- Jerry Uelsmann, fine art photographer
- Stephen Wilkes, commercial, editorial and fine art photographer
- Deborah Willis, artist, author, curator

ACCREDITATION
The School of Visual Arts has been authorized by the New York State Board of Regents (www.highered.nysed.gov) to confer the degree of Bachelor of Fine Arts on graduates of programs in Advertising; Animation; Cartooning; Computer Art, Computer Animation and Visual Effects; Design; Film; Fine Arts; Illustration; Interior Design; Photography and Video; Visual and Critical Studies; and to confer the degree of Master of Arts on graduates of the programs in Critical Theory and the Arts; Curatorial Practice; Design Research, Writing and Criticism; and to confer the degree of Master of Arts in Teaching on graduates of programs in Art Practice; Art Writing; Computer Arts; Design; Design for Social Innovation; Fine Arts; Illustration as Visual Essay; Interaction Design; Photography, Video and Related Media; Products of Design; Social Documentary Film; Visual Narrative; and to confer the degree of Master of Professional Studies on graduates of the programs in Art Therapy; Branding; Digital Photography; Directing; Fashion Photography; Data required by the U.S. Department of Education on “Gainful Employment” for each of the above programs may be found on each individual program page at sva.edu/ge.

The School of Visual Arts is accredited by the Middle States Commission on Higher Education (msche.org), 3624 Market Street, Philadelphia, PA 19104, 267.284.5000. The Commission on Higher Education is an institutional accrediting agency recognized by the U.S. Secretary of Education and the Council on Higher Education Accreditation.

The School of Visual Arts is an accredited institutional member of the National Association of Schools of Art and Design (nasad.arts-accredit.org).

The Interior Design program leading to the Bachelor of Fine Arts in Interior Design is accredited by the Council for Interior Design Accreditation (accredit-id.org), 206 Grandville Avenue, Suite 305, Grand Rapids, MI, 49503-4014.

The Master of Arts in Teaching in Art Education program is accredited by the Council for the Accreditation of Educator Preparation (CAEP).

The Master of Professional Studies in Art Therapy degree program is approved by the American Art Therapy Association, Inc., and as such meets the Education Standards of the art therapy profession.
