STEP 3 Submit Form (SEE BACK OF FORM FOR SUBMISSION GUIDELINES)

Instructions for Completing the SVA Student Health Form

There is no deadline to submit this form. However, you will be unable to continue with the registration process until we receive the form and can verify that you are in compliance with all of the New York State immunization requirements.

STEP 1

Meningitis Response

This section is completed by the student and must include all of the information requested. The form will not be accepted if incomplete.

The Meningitis vaccine is not required. However, we are required by New York State Public Health Law 2167 to notify students about Meningococcal Disease. Please visit the link on the front side of the form to obtain more information.

If a student is under the age of 18, the parent's signature and date are required.

STEP 2

Measles, Mumps, Rubella Immunization

This section must be completed by a health care provider or school official. Depending upon the way you prove immunity, Section A **or** Section B **or** Section C **must** be completed. Section D must also include the signature **and** stamp, seal or business card of the health care provider or school official.

New York State Public Health Law 2165, requires that all students born on or after January 1, 1957 prove immunity to Measles, Mumps, and Rubella.

Students are required to submit proof of immunity to Measles, Mumps and Rubella either with documentation of at least 2 Measles, 1 Mumps and 1 Rubella **or** serological titers and lab report signed by the health care provider. All vaccinations must be on or after the student's 1st birthday. All vaccinations must be received at least 30 days apart.

Should you need assistance locating your health records or obtaining a vaccine:

- Please contact the school you most recently attended if you cannot locate your immunization records. Should they have records documenting your vaccination dates (2 Measles, 1 Mumps, 1 Rubella) we will accept a copy (on school letterhead, signed and stamped) along with the health form as official proof. You are still required to submit the health form with Step 1 completed.
- Contact your local health care provider to have serological titers (blood test) for immunity to Measles, Mumps and Rubella. You are still required to submit the health form with Step 1 and Step 2, and Sections C and D completed.
- If you live in the New York City area, contact your health care provider, call 311, or visit the Department of Health and Mental Hygiene's website at www.nyc.gov/health for information on services (various services may be free of charge) and locations. If you live outside the New York City area, contact your local health department for suggestions.

Exemptions From Step 2: Measles, Mumps, Rubella Immunization

All students in these categories must complete Step 1.

1. Age Exemption:

Students born before January 1, 1957 are age exempt. Please submit the health form with a copy of your driver's license, birth certificate, or passport to prove that you are age exempt.

2. Medical Exemption:

Students must submit a statement from their health care provider specifying which vaccine product should not be administered and how long the contraindication will last. The statement must also include a future date referring to when the medical exemption may no longer apply. These exemptions are subject to the approval of the Department of Health and Mental Hygiene.

3. Religious Exemption:

Students must submit a statement of genuine and sincere religious (not philosophical) beliefs contrary to the practice of immunization. Supporting documentation on letterhead from a person of authority in your place of worship is also required.

STEP 3

Submit Form

Return health form via email to health@sva.edu (subject line must include your SVA Student ID number) or fax to 212.592.2216. You will receive an email once the form has been processed. Please allow up to 3 business days. Contact Student Health and Counseling Services at health@sva.edu or at 212.592.2246 if you have any questions.
